

Encite Receives the SureScripts White Coat of Quality

Encite Inc., a leader in Healthcare Software Development specializing in Dermatology receives the SureScripts White Coat of Quality.

09-May-2013 – Charlotte, NC - Encite Inc., a leader in Healthcare Software Development specializing in Dermatology receives the SureScripts White Coat of Quality.

The SureScripts White Coat of Quality recognizes Encite as an e-Prescribing technology provider who has demonstrated a commitment to the highest level of clinical quality. As a White Coat recipient, Encite continues to improve prescription accuracy, completeness and safety. Encite as a company will continue to strive to improve the e-prescribing process to ensure safe and effective medication therapy.

Encite's Electronic Prescription Writing is the most intuitive prescription writing module on the market today. Because of its intuitive user interface and easy to follow work flow it requires little training and is usable within a few moments. This affords healthcare professionals the ability to quickly and easily transition to e-prescribing.

Encite utilizes SureScripts, the industry standard, to offer e-Prescribing to our dermatology practices. Medications are sent electronically to pharmacies, providing tremendous efficiency reducing errors while providing high levels of security in the process.

About Encite, Inc.
